

WEBSITE STRATEGY & VISUAL BLUEPRINT

800 Years Celebration of Chaolung Sukapha (1228 – 2028)

1. Executive Overview & Core Purpose

This architectural document details the design language, content architecture, navigation models, and user experience strategy for the official website celebrating **800 years of Chaolung Sukapha's legacy**. The website serves a dual purpose: acting as a highly engaging **temporary cultural festival hub** for the 2028 celebrations and transitioning into a permanent, authoritative **digital historical repository**.

2. Design Framework & Color System

To honor the heritage of the Ahom dynasty and the broader identity of Assam, the layout adheres to a strict 60-30-10 distribution hierarchy:

Role	Color Palette & Hex Values	Cultural & Functional Significance
60% Base	Warm Silk Cream (#FDFBF7)	Simulates traditional <i>Sanchi Paat</i> (bark manuscripts); minimizes digital eye strain.
30% Primary	Royal Hengul Red (#A62B2B) Muga Royalty Gold (#D4AF37)	Signifies strength, traditional vermilion pigments, the Royal Ahom crest, and golden Assamese Muga silk.
10% Accent	Vibrant Crest Gold (#FFC107)	Reserved exclusively for critical Call-To-Actions (CTAs), highlights, and active notification badges.

3. Global Header & Navigation Architecture (Navbar)

The primary navigation bar requires a clear, narrative-driven terminology structure to maximize immersive engagement. It is divided as follows:

Left Side: The Royal Crest

- **Logo:** A stylized, minimalist vector illustration of the mythical *Ngie Ngao Kham* (Ahom Winged Dragon Lion).
- **Site Identity Text:** 'SUKAPHA 800' positioned adjacent to the crest.

Center: Core Narrative Paths

- **The Migration (Chronicles):** Houses the multi-stage interactive timeline mapping the journey from Mong Mao, crossing the Patkai hills, to the establishment of the capital.
- **The Legacy (Assimilation):** Highlights Sukapha's philosophy of building *Bor Asom* (Greater Assam) through social synthesis and inclusive governance.
- **Centenary Events (Hub):** A dynamic dashboard covering central state schedules, youth contests, seminars, and live event broadcasts.
- **Heritage Vault (Gallery):** Media repository showcasing high-resolution visuals of Charaideo Maidams, weaponry (Hengdang), coins, and artifacts.

Right Side: Immersive Controls & Action

- **Traditional Ambient Audio Switch:** A clean toggle key allowing users to enable micro-acoustic backdrops (subtle Tokari strings or low-tempo traditional instrumentation).
- **Primary CTA Button:** A highly visible high-contrast button reading 'Register for Events' or 'Attend Festivities'.

4. Comprehensive Footer Matrix

The footer serves to build informational authority, meet compliance criteria, and link secondary nodes seamlessly. It layout matches a four-column grid:

Col 1: Heritage Trust	Col 2: Discover More	Col 3: Participation	Col 4: Connect & Visit
Brief overview paragraph celebrating the foundational legacy of 1228 AD.	• Charaideo Maidams • Historical Archives • Research Papers • Photo & Video Assets	• Volunteer Portal • School Competitions • Souvenir Shop • Media Press Kit	Secretariat: Cultural Affairs Dept, Dispur, Guwahati, Assam.
Social Media Channels tailored with custom icons.			Helpdesk: contact@sukapha800.in

Bottom-most Copyright & Compliance Bar:

- Copyright © 2028 Celebration Committee. All Rights Reserved.
- Privacy Policy | Terms of Commemoration Platform Use | Website Accessibility Guidelines.

5. Critical UX & Engagement Factors

- **Storytelling Over Text:** Information blocks should feel like historical acts or chapters. Use interactive maps over long-form prose wherever possible.
- **Authentic Borders & Motifs:** Sections must be segmented using subtle geometric elements inspired by *Jaapi* geometry and traditional *Gamusa* borders rather than harsh digital borders.
- **Device Optimisation:** The timeline navigation elements must transition seamlessly from a horizontal landscape layout on desktops to an intuitive vertical drag-and-swipe flow on standard smartphones.
